WhatsApp: +98 935 444 1855 | Email: delinarobat@gmail.com | LinkedIn: [Delina Sheikhrobat](#)

RESEARCH INTERESTS

- Interested in the integration of Building Information Modeling (BIM) with green building and sustainability practices, with a focus on leveraging automation tools (such as Dynamo) and emerging technologies like AI to streamline design workflows and advance technology-driven innovation in construction management.

EDUCATION

Bachelor of Civil Engineering — *University of Tehran*

Sep 2021 – Jan 2026

GPA: [16.22 / 20]

PUBLICATIONS

Sheikhrobat, D., Faghihi, S.V. — "Evolution of BIM-LEED Integration: A Systematic Literature Review of Their Relationship, Applications, and Technology-Driven Changes Across LEED Versions."

Under Review

TEACHING EXPERIENCE

Teaching Assistant — Building Information Modeling — *University of Tehran (Instructor: Dr. S. Vahid Faghihi)*

Dec 2025 – Aug 2026

- Mentored undergraduate students through core BIM workflows across the 3D (modeling), 4D (scheduling/animation), and 5D (cost estimation) dimensions of BIM.
- Supported students in Autodesk Revit for parametric 3D modeling and in Autodesk Navisworks for model coordination, clash detection, and 4D construction sequencing/animation.
- Guided students in Microsoft Project to develop construction schedules and link them to BIM models for 4D/5D workflows, including quantity take-off and cost estimation

RESEARCH EXPERIENCE

Research Assistant — VR & Computer Graphics Lab, Dept. of Civil Engineering — *University of Tehran*

(Supervisor: Dr. N. Khademi)

Apr 2024 – Dec 2024

- Designed and developed immersive virtual-reality environments in Unity to support transportation research studies, translating real-world road and traffic scenarios into interactive 3D simulations.
- Integrated VR environments with head-mounted displays to run controlled experiments examining participant (student) behavior and decision-making in simulated traffic scenarios.
- Collaborated with faculty researchers to define experimental scenarios and iterate on environment design based on pilot testing feedback.

LEADERSHIP & INVOLVEMENT

Board Member — *Civil Engineering Scientific Student Association, University of Tehran* Sep 2024 – Jan 2026

Editor-in-Chief & Founder — *"Chamroosh": Scientific & Cultural Journal of the Civil Engineering Student Association*

Co-Organizer — [TEDxKish](#)

Oct 2025

Curator / Head of Media Team — [TEDxUT](#)

May 2025 / Oct 2024

Photographer — *TEDxSUT, Sharif University of Technology*

Dec 2023

SKILLS

BIM & Design: Autodesk Revit (Advanced), Dynamo for Revit, Autodesk Navisworks, AutoCAD, CityEngine, Unity (VR environment development)

Data & Modelling: Machine Learning (Intermediate), Excel

Project Management: Microsoft Project

Media & Design: Figma (Graphic Design & UI/UX), Adobe Premiere (Video Editing)

Soft Skills: Problem-solving, works independently and collaboratively, proactive learner

LANGUAGES

English — TOEFL iBT: 110/120 (C1) | Reading: B2, Listening: C2, Writing: C1, Speaking: C1

Persian — Native
